Australia's favourite ethanol fireplace!

Black and Stone produce the VioFlame and Ezy Flame ranges of stylish, clean burning ethanol fireplaces and Ezy Flame decorative fires. Black and Stone's ethanol fires provide heat and the beautiful dancing flames bring ambience to virtually any room in the home.

VioFlame and Ezy Flame ethanol fireplaces let you experience the look and feel of a real fireplace without the mess, inconvenience or high cost associated with traditional forms of fireplaces. Visually exciting and functional, they instantly transform a room into a beautiful, warm and inviting living space.

Black and Stone ethanol fires are ideal for apartments, homes, offices, guest rooms, foyers, outdoor rooms, entertainment areas, balconies, coffee tables and dining tables.

See the range

Our convection fireplaces are designed to heat a space by drawing in cool air, heating it and gently circulating the warmth throughout your living space.

The only way to experience the ambience and warmth of a real fire is with a true flame. Our fireplaces use clean burning ethanol to provide real heat and a true dancing flame.

Look for the Real Heat icons under each model to see the recommended maximum indoor heating area in square metres.

Models bearing this symbol are covered by a 3 year parts and labour warranty* from Black and Stone.

Your local Black and Stone dealer is:

*3 year warranty applies to indicated models only. All other models are covered by a 12 month warranty. See warranty terms and conditions for details.
